Subject: Updating NRC Reports - Hurricane Harvey
Date: Thursday, September 07, 2017 2:16:39 PM
Importance: High

PDOs – Don't forget if you receive an NRC report that is related to Hurricane Harvey please populate the initial action field with the value of "Harvey" and only "Harvey". The IMT is setup to pull this information out and add it to Response Manager as targets for the appropriate branch but can only do that if the NRC report is flagged appropriately.
